Balance in hands of Trustees,	22 22	

C. A. PARKER, } Library
A. W. WELCH. } Trustees.

We have been unfortunate in not being able to retain the same librarian during the whole year, but the public has been served never the less. The library is in good condition and at the service of all residents of the town. 41 books have been added during the year. We wish to make special mention of a complete set of the Granite Monthly bound in six volumes which will prove of interest to all interested in New Hampshire. 1351 books have been loaned during the year. We again invite all to take advantage of the library and thus receive your share of the benefit of good books.

Report of Cemetery Trustees

Report of the Trustee of the Charles Booth fund and the Frank Davis fund for the year ending Feb. 15, 1913.

There has been no money expended in the cemetery and no money drawn from either of the funds which are in Newport Savings Bank.

HIRAM PARKER, Trustee.

Report of School Board

We believe there is every reason to be satisfied with the condition and advance of our public schools throughout the year just completed.

Four out of the six teachers are those approved by the State and their past experiences have proven them to be competent to conduct schools in an acceptable manner.

The registers show a larger per cent of attendance than usual, which is commendable alike to parents and pupils. Not only does the pupil lose by being absent but the town loses financially from its proportion of the State school fund which is paid on the average attendance.

The examinations have been well attended and parents and citizens have visited the schools frequently thereby showing interest and co-operation gratifying to the school board, teachers, and pupils.

Under present conditions it costs less than thirty dollars yearly to educate each pupil of the town, and of this sum the State pays about six dollars, thus enabling the town to give each pupil thirty weeks of school at an expense of less than twenty-four dollars.

We believe, as undoubtedly you all do that our public school system to-day is better than anything we have ever had, but that there are still defects in it must be apparent to every one who honestly studies it, and to the remedy of these defects the work and influence of the School Board should be exerted. The best friends of our schools are the persons who by co-operation and kindly criticism will seek to improve them. Your school board is ready at all times to consider suggestions from any interested persons, our only aim being to lift our public schools to a higher level.

The total expenditures are shown by the financial report, with the exception of High school tuition which in some cases has not been paid because we have been unable to get the bills.

We recommend for the coming year as follows :

High school tuition,	\$200 00
School supplies,	60 00

School Treasurer's Report
